3. Login to the Magento backend and go to the System - Configuration - Payment Methods and open the Payment21 Instant eCheck method.

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes 'Dashboard', 'Sales', 'Catalog', 'Mobile', 'Customers', 'Promotions', 'Newsletter', 'CMS', 'Reports', and 'System'. The 'System' tab is active. On the left, the 'Configuration' menu is expanded to 'GENERAL', and 'Payment Methods' is selected. The main content area displays the 'Payment Methods' configuration for 'Payment21 Instant eCheck'. The configuration includes a 'Save Config' button and the following fields:

- Enabled: Yes (dropdown menu)
- Company ID: enter ID here
- User Name: enter username here
- User Password: enter password here
- IP Address: enter server IP address here
- Sort Order: 10

Below the main configuration, there is a list of other payment methods: Zero Subtotal Checkout, Check / Money Order, Purchase Order, Authorize.net, and Authorize.net Direct Post.

- 4. Now enter your Payment21® details (ID, User Name, Password provided by Payment21 after your signup in 5 easy steps). Below are only test settings of a demo company.

Note: for debugging purpose there is an option to “Enable responses log file”  
This is for the file `/errors/msg_log.txt`

- 5. Now save your configuration

 **The configuration has been saved.**

Note:

If your transaction is rejected, it is possible that you entered the IP address during your signup process with Payment21® incorrectly. Please contact [support@payment21.com](mailto:support@payment21.com) to get this corrected.

Sort order of display refers to the payment module sort order: The lower the number - the higher the preference, with 0 representing the top choice.

Your setup is now complete! See below the user experience.
